Badger Mutual INSURANCE

CYBER LIABILITY INSURANCE REJECTION NOTICE

Insured:

Policy:

Badger Mutual Insurance Company's Cyber Liability Insurance provides protection to policyholders facing cyber risks. Coverage provided by the Cyber Liability Insurance generally pertains to multimedia perils, security and privacy wrongful acts, security breaches, privacy breaches, adverse media reports, loss of digital assets, failure of computer systems, cyber extortion and cyber terrorism, subject to the terms of coverage, including conditions, exclusions and limitations, stated in the Cyber Liability Insurance Endorsement.

By signing this rejection notice, we hereby reject Cyber Liability Insurance for the named insured referenced above, and all business locations, entities and persons who would qualify as insureds under the policy. We understand that we are electing not to purchase a valuable coverage, which would protect us in the event of a cyber liability claim. We also understand that the protection provided by Cyber Liability Insurance is not available through our Commercial General Liability Insurance policy(ies).

In the event there is more than one insured listed on the Declarations page of the policy to which this rejection applies, rejection by any one insured shall be deemed rejection by all insureds.

Once rejected, Cyber Liability Insurance will not be offered on subsequent renewals unless the named insured requests such coverage in writing, and makes payment for it.
